

Project Initialization and Planning Phase

Date	26 June 2026
Team ID	SWTID-2026-3658
Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	3 Marks

Define Problem Statements :

Students often struggle to understand complex concepts, find reliable answers, and efficiently prepare for exams using scattered learning resources. Existing platforms do not provide concept explanations, quizzes, summaries, and personalized learning guidance in one place. **EduGenie** addresses this problem by using Generative AI to deliver intelligent educational assistance through a single, easy-to-use platform.

Example:

Problem Statement	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student preparing for exams	Understand difficult concepts quickly	I struggle to understand textbook explanations	They are lengthy and use complex language	Confused and less confident
PS-2	A learner	Practice for exams using quizzes	I don't have an easy way to generate quality practice questions	Creating quizzes manually takes time	Unprepared for exams
PS-3	A student learning a new subject	Follow a structured learning path	I don't know where to start or what to learn next	Resources are scattered across different websites	Overwhelmed and uncertain
