

Project Demo Planning

Date	3 July 2026
Team ID	SWTID-2026-3658
Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the EduGenie project is presented clearly by demonstrating its AI-powered educational features, system architecture, implementation, and overall workflow. The demonstration highlights how the application helps students through intelligent learning assistance.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the challenges students face in finding accurate answers, understanding concepts, and accessing personalized learning resources.	2	Member 1
2	Project Overview & Architecture	Present the EduGenie architecture, technology stack, database design, and overall workflow.	2	Member 2
3	AI Features Demonstration	Demonstrate Question Answering, Concept Explanation, Quiz Generation, Text Summarization, and Personalized Learning Path features.	3	Member 4
4	Authentication & Dashboard Demo	Demonstrate user registration, login, learning history, bookmarks, and dashboard navigation.	2	Member 3
5	Technical Implementation	Explain the FastAPI backend, Google Gemini 1.5 Flash integration, LaMini-Flan-T5 usage, SQLite database, and API workflow.	2	Member 4
6	Results, Future Scope & Conclusion	Present project outcomes, limitations, future enhancements, and conclude the demonstration.	2	Member 2

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain why students need an AI-powered educational learning assistant.
2	Solution Overview	Describe EduGenie architecture, workflow, technologies, and AI integration.
3	Live Feature Demonstration	Demonstrate Question Answering, Concept Explanation, Quiz Generation, Text Summarization, Learning Path, and User Authentication.
4	Q&A Session	Answer evaluator questions and discuss future enhancements such as RAG, Docker deployment, multilingual support, and analytics.
